SPEAKER

James B. Renacci

Former U.S. Representative
for Ohio's 16th District and
Republican candidate for
Governor of Ohio

In 2022, Ohio will elect new statewide office holders. Leading up to the election, the City Club will be hosting conversations with candidates seeking statewide office.

James B. Renacci announced on June 9, 2021 that he was joining the race for Ohio governor.

A Pennsylvania native, Renacci moved to Wadsworth in 1983 where he founded LTC Management Services, a company that owned, operated, and managed nursing facilities throughout the region.

Throughout his 30-year business career, he owned and operated more than 60 entities, created more than 1,500 jobs and employed more than 3,000 people.

Renacci served as Mayor of Wadsworth from 2004-2008.

Renacci was elected to the United States House of Representatives in November 2010, serving the 16th district of Ohio from 2011-2018. He served on the Financial Services Committee, House Ways and Means Committee, and the House Budget Committee.

YOU CAN ASK A QUESTION

What makes The City Club of Cleveland unique is our Q&A. We welcome questions from everyone.

- Once acknowledged and motioned over, walk to the microphone holder on your side of the room. The speaker does not call on audience members.
- One question per person. Make sure your question is an actual question, not a statement. Keep your question short, no follow-ups. This will allow us to fit in as many questions as possible.
- Please don't grab the microphone. This is to ensure that we are getting the best audio recording. We are recording this program, so please speak directly into the microphone.
- Nervous about asking in person? **Tweet @TheCityClub** or send a **text** to **330.541.5794**, and we will do our best to work your question in.

2021 State of the Great Lakes

The Great Lakes region is home to 21 percent of the world's surface freshwater, and dozens of tribal nations have been key leaders in the movement to protect all of our waterways. For the 2021 State of the Great Lakes, we will hear from Dr. Kelsey Leonard, a water scientist, legal scholar, policy expert, writer, and enrolled citizen of the Shinnecock Nation. Dr. Leonard is an Assistant Professor in the Faculty of Environment at the University of Waterloo, where her research focuses on Indigenous water justice and its climatic, territorial, and governance underpinnings.

Stronger Together: Collaboration Between Health Systems during COVID-19

In the early days of the COVID-19 pandemic, reliable scientific consensus and critical epidemiologic information about the virus was often inconsistent. Despite having programs and protocols in place for this sort of challenge, the pandemic caught hospitals and healthcare providers off guard. To address urgent public health needs, the moment called for collaboration across traditional silos and required Northeast Ohio's world class health systems to find common ground.
